MUHAMMED ASLAM

Fullstack Software Engineer

azlamm512@gmail.com | +91 62829 28549 | Sulthan Bathery, Kerala |
github.com/MuhammedAslam512 | Portfolio

PROFESSIONAL SUMMARY

Results-driven Fullstack Software Engineer with expertise in building scalable multi-tenant SaaS platforms and modern web applications. Proficient in React, Node.js, Express, and MongoDB, with hands-on experience in real-time system architecture, WebSocket synchronization, and third-party API integrations (Stripe). Adept at transforming complex technical requirements into high-performance, responsive, and secure enterprise-grade solutions.

TECHNICAL SKILLS

Frontend:

React.js, JavaScript (ES6+), HTML5/CSS3, Tailwind CSS, Vite, Framer Motion, Responsive Design

Backend & Database:

Node.js, Express.js, MongoDB (Mongoose), Redis, RESTful APIs, Socket.io (WebSockets)

DevOps & Cloud:

Git/GitHub, GitHub Actions (CI/CD), Postman, Docker, Render, Vercel, Stripe API Webhooks

Networking:

AWS Fundamentals, CCNA, CCNP, RHCE

SELECTED PROJECTS

Donglify — Enterprise Multi-Tenant B2B SaaS Platform

React, Node.js, Express, MongoDB, Redis, Socket.io, Stripe, Tailwind CSS

- Architected a real-time collaborative document editor using **Socket.io**, supporting dynamic cursor presence and conflict resolution across concurrent client sessions with sub-50ms latency.
- Implemented strict multi-tenant data isolation using dynamic HTTP host-header resolution, enforcing Role-Based Access Control (RBAC) and immutable SHA-256 security audit logs.
- Integrated the **Stripe API** for dynamic SaaS subscription billing, utilizing asynchronous webhook event processors to enforce tenant resource metering and document limits.
- Optimized database read throughput by 40% using indexed **MongoDB $facet aggregation pipelines** and implemented sliding-window API rate limiting using **Redis**.
- Built an automated **GitHub Actions CI/CD** deployment pipeline featuring `.env` security scanners and blue-green deployment triggers to Render and Vercel.

E-Commerce Web Application (Amazon Clone)

React.js, Vite, Tailwind CSS, Context API

- Developed a fully responsive e-commerce Single Page Application (SPA) prioritizing clean UI and component reusability.
- Implemented dynamic state management for complex cart operations, product filtering, and pricing calculations.
- Optimized rendering performance and asset loading using Vite, achieving near-instant hot module replacement (HMR) and fast production builds.

Interactive Developer Portfolio

React.js, Tailwind CSS, Framer Motion

- Designed and deployed a high-performance developer portfolio featuring smooth physics-based UI animations using **Framer Motion**.
- Utilized modern CSS layout techniques (Flexbox/Grid) to ensure 100% responsiveness across desktop, tablet, and mobile breakpoints.

EDUCATION

Diploma in Computer Engineering 2024
Govt. Polytechnic College, Mananthavady

Higher Secondary Education (Plus Two - Computer Science) 2021
GVHS Sulthan Bathery

SSLC 2019
GHSS Moolankave
